RE: 2027 Cost-of-Living Adjustment — Your New Benefit Amount

Dear Ms. Garcia,

Each year, we review Social Security benefits to make sure they keep up with the cost of living. Based on the increase in the Consumer Price Index, your monthly Social Security benefit will increase by **2.5%** beginning January 2027.

Your new monthly benefit: \$1,847.32 (an increase of \$45.05 from your current monthly benefit of \$1,802.27).

No action is required on your part. Your new payment amount will be deposited automatically into your bank account on your regular payment date in January 2027. If you receive your benefits by paper check, your January check will reflect the new amount.

If your Medicare premiums are deducted from your Social Security payment, the amount deducted may also change in January based on the 2027 Medicare premium rates, which will be announced in late 2026.

You can view your benefit information anytime by signing in to your personal 'my Social Security' account at ssa.gov/myaccount. If you have questions, call 1-800-772-1213 (TTY 1-800-325-0778), Monday through Friday, 8:00 AM to 7:00 PM.
